for all Pack 105 information!

POPCORN

It is coming to a close. We are working on ideas to thank the big sellers with a pizza party or other suggestions maybe by individual or den average totals.

October Pack Meeting help needed

We are going to do a tool theme so the scouts can learn how to handle sanding, cutting and decorating a pinewood derby car. What I need are portable work benches, wood scraps, sandpaper and the like. Contact Cubmaster Adair with what you can help with.

Cantigny Hike

Trying to get back into hiking for the fall, I am planning a hike at Cantigny. The trail includes tree identification, fall colors, migrating water fowl and birds as well as access to the museum for free. The proposed date is October 26 and the cost is \$0. I just need a headcount and all Scouts will need to be in uniform and check in at the gate.

Pinewood Derby

The Pinewood Derby Committee has been working already. The scoring computer will be working this year, so will have a smooth race and overhead projected scoring. Car and truck kits will be distributed at the October Pack Meeting so please attend. If you cannot make it let us know so a kit can be arranged for pick up later on. Rules will be available on the website soon too and numbers will be assigned. There is also a family race after the scouts are done for those who want to build one for the non-scouts in the family.
